Tastes of South Moravia

Ivančice Asparagus

Ivančice used to be an area of massive asparagus growing and local asparagus proved to be the best not only in Austria, but in the whole Europe. This fact is annually commemorated by Asparagus Feast held in May and connected with tasting of asparagus delicacies and extensive accompanying programme.

Wine Salon of the Czech Republic

The Valtice Chateau complex serves as a seat of the National Wine Centre, a non-profit organisation that runs the Wine Salon of the Czech Republic. The Wine Salon of the Czech Republic is the top wine contest in the Czech Republic that frames the system of nomination exhibitions. The competition itself is followed by permanent public degustation exposition of the top 100 wines placed in the cellar premises of the state-run chateau in Valtice.

Wine Across the Centuries

The new wine exposition in the Regional Museum in Mikulov, with unusual art conception, summarises the history and development of wine growing and wine making in our area in the context of European history. The atmosphere full of wine and history is supported by sensitive lighting and composed period music.

Water Mill in Slup

Corn is the crop accompanying our region for long millennia. To get to know the history of its processing, you can go to Slup, close to Znojmo. A meeting of traditional folk craft and folk groups called "Bread feasts" is annually held in front of the monument.
