

The Border Chateau Hlohovec

Title: The Border Chateau Hlohovec

Description: The Classicist Border Chateau was built by Joseph Poppelack in 1826 - 1827 on the west bank of the Hlohovec Pond. Originally, the land border between Moravia and Austria passed exactly through the center of the hall of the chateau. On the long ground floor there are three atria, roofed by a terrace. The inscription on the parapet above the main eaves reads "Zwischen Österreich und Mähren" (Between Austria and Moravia)
