

Regional Museum in Mikulov - Chateau Mikulov

Title:	Regional Museum in Mikulov - Chateau Mikulov
Description:	The imposing chateau was originally a medieval castle that guarded the turbulent border with Austria. The later owners of the estate, the Liechtensteins (from the middle of the 13th century) and the Dietrichsteins (from the 16th century) gradually converted it into its present Baroque grandeur. The chateau went up in flames in 1945, and was then again restored thanks to the work of the Society for the Restoration of the Chateau. Today it houses the Regional Museum in Mikulov and you can find many interesting exhibits here.
